International Travel Approval Request

Create a Travel Approval Request (TAR) for each grant-funded participant who is traveling to or from the U.S.

- To add a TAR, click the "Add a Travel Approval Request" button.
- Your TARs are listed below.
- To view or edit a TAR, click "Update."
- To remove a TAR, click "Delete."
- For travel to the U.S., only international travel costs need to be approved.
- After entering a TAR, click the "Submit to IEPS" button at the bottom of the page to submit it to IEPS.
- IRIS will notify your program officer by email when the TAR is submitted.
- Once the TAR is approved or disapproved, IRIS will send you an email with additional information from your program officer.
- Once the TAR has been approved by IEPS, it can be updated and resubmitted to IEPS for your program officer to reapprove.
- Note: A TAR is required if grant funds are supporting any cost associated with the travel, e.g., per diem, air fare, ground transportation.

The TAR must be submitted to IEPS at least 30 days prior to the traveler's departure.

Time Extension

Section 74.25 of the Education Department General Administrative Regulations (EDGAR) allows a grantee to notify IEPS about the necessity to extend the end of a grant for up to 12 months. The time extension allows you to complete an activity that you were unable to complete before the scheduled end date of your grant. If you need a time extension, you must notify your program officer in writing at least 10 days before the end date of the grant.

*Please provide a justification for the one-time extension.

Comments: (limit 1,500 characters and spaces)

*Enter the amount of funds to be used during the time extension

\$

*Enter the revised end date for your project. When the project end date is extended, the due date for the submission of your final performance report will change. The final performance report will be due 90 days after the revised end date.

Example: 01/01/1900

Please note: According to EDGAR 74.25(e)(2)(ii) a time extension may not be exercised merely for the purpose of using unobligated balances.

Uploading course records imports course records from a pre-formatted Excel spreadsheet directly into the system.

Instructions to Upload Course Records

Step 1: Download the pre-formatted Excel spreadsheet for this screen.

1. Click [here](#) to save a copy of the spreadsheet to your desktop.
2. You must use Microsoft Excel to enter data into the downloaded spreadsheet.
3. If you are unable to read the downloaded spreadsheet file or if you are unable to view the drop-down lists (such as for languages), contact the help desk at irismail@cds2helpdesk.com for assistance.

Step 2: Enter course records into the spreadsheet

I. General Information

- If there is a drop-down list for a column, it will say so on the second line. You must use the dropdowns for these columns. Select the most appropriate choice from the list. To display the drop-down options for a field, click on the cell and then on the arrow that appears to the right of the cell. You will see the possible selections for that field and may select only from those values. (Note that you cannot click on the dropdown in the heading row.)
- For Language and Classroom Instructor columns, if the list doesn't have the appropriate value, enter the other value into the "other" column.
- You may use the copy and paste function whenever the same information must be entered many times.
- If the value you enter in a field exceeds the maximum specified, the value will be cut off at that point.
- Save and backup your copy of this file in your records frequently.
- **No more than 1000 course records can be uploaded from one spreadsheet.**

II. Specifics for Language Course Records:

Course Title: Enter the title of the course as listed in your institution's course catalog.

Course Number: Enter the number of the course as listed in your institution's course catalog.

Language: Select the language taught in the course from the drop-down list. If the language is not the list, enter the language into the "Other" column.

Level: Select the level of the course at the institution by choosing from the drop-down list.

Semester/Quarter: Select the semester or quarter in which the course was given from the drop-down list.

Contact Hours/Week: Enter the number of classroom contact hours per week.

Is course supported with Title VI monies?: If this course was supported with Title VI NRC funds, select "yes," otherwise "no."

Is course a new offering?: If the course wasn't previously offered at your institution, select "yes," otherwise "no."

Comments: Enter any further information you would like included with this course record. Limit 1000 characters.

Course sections

Create a record for each section of a course. If only one section was offered, only one record is needed. If five sections were offered, then five course records should be entered — one for each section.

Section: Indicate the number of the section from your institution's course catalog.

Classroom Instructor: Select the type of the instructor for this section from the drop-down list. If the correct type is not on the drop-

down list, enter the type into the other instructor column.

Enrollment: The total number of enrolled undergraduate, graduate and other student enrollment in this section of the course must be greater than zero. Zero should be entered if a student type does not apply.

Step 3: Uploading the spreadsheet

1. After you have entered all of your courses and sections, in Excel, save the spreadsheet as a **CSV** type by clicking on "Save As" and selecting Save as type "CSV (Common delimited)".
2. Return to this screen and click the "Browse..." button below. The File Upload window shows files available on your computer. Find your CSV file and click on it, then click the "Open" button.
3. Please be sure you are uploading the course spreadsheet for language courses.
4. After a file is selected, click the "Upload Course Records" button. Click "OK" when asked to confirm that you would like this file to be uploaded.
5. The system reviews all the data while uploading. If the records upload successfully, the Language Courses page will display with a list of your courses and a message telling you how many records were loaded.
6. If there are 3 or more blank records in a row on the spreadsheet, the load will stop at that point.
7. If any records could not be uploaded, a list of the problematic records by row and column will display. Fix the problems on the spreadsheet and repeat Step 3.

Records from a spreadsheet are saved only if there are no problematic course records. No partial uploads will occur.

Upload Course Spreadsheet: Select the .CSV file from your desktop

no file selected

If a course has more than three disciplines, specify additional disciplines in the "Other Discipline" column as well.

Is course supported with Title VI monies?: If this course was supported with Title VI NRC funds, select "yes," otherwise "no."

Is course a new offering?: If the course wasn't previously offered at your institution, select "yes," otherwise "no."

Nature of Revisions/Enhancements: If the course has been previously offered at your institution, select the type of revision or enhancement to the course, if any, from the drop-down list. If the revision/enhancement is not on the drop-down list, enter that revision in the "Other Revision" column.

If this course can be applied toward a professional or pre-professional program: If the course can be used to meet requirements for achieving a professional degree at your institution, select the professional degree program from the drop-down list. If the program is not on the drop-down list, enter the program in the "Other Program" column.

Comments: Enter any further information you would like included with this course record. Limit 1000 characters.

Course sections

Create a record for each section of a course. If only one section was offered, only one record is needed. If five sections were offered, then five course records should be entered — one for each section.

Section: Indicate the number of the section from your institution's course catalog.

Classroom Instructor: Select the type of the instructor for this section from the drop-down list. If the correct type is not on the drop-down list, enter the type into the other instructor column.

Enrollment: The total number of enrolled undergraduate, graduate and other student enrollment in this section of the course must be greater than zero. Zero should be entered if a student type does not apply.

Step 3: Uploading the spreadsheet

1. After you have entered all of your courses and sections, in Excel, save the spreadsheet as a **CSV** type by clicking on "Save As" and selecting Save as type "CSV (Common delimited)".
2. Return to this screen and click the "Browse..." button below. The File Upload window shows files available on your computer. Find your CSV file and click on it, then click the "Open" button.
3. Please be sure you are uploading the course spreadsheet for IAS courses.
4. After a file is selected, click the "Upload Course Records" button. Click "OK" when asked to confirm that you would like this file to be uploaded.
5. The system reviews all the data while uploading. If the records upload successfully, the IAS Courses page will display with a list of your courses and a message telling you how many records were loaded.
6. If there are 3 or more blank records in a row on the spreadsheet, the load will stop at that point.
7. If any records could not be uploaded, a list of the problematic records by row and column will display. Fix the problems on the spreadsheet and repeat Step 3.

Records from a spreadsheet are saved only if there are no problematic course records. No partial uploads will occur.

Upload Course Spreadsheet: Select the .CSV file from your desktop
