Abstract: Sections 2201-2203 of the Elementary and Secondary Education Act describe information to be included in the annual performance report required of the Mathematics and Science Partnerships Grant program. Submission of the annual performance report (APR) via the data collection site has taken place since 2006 and will continue to occur between October 30 and November 30 of each year. If APR data submitted during this time frame are incomplete or inaccurate and/or if re-submission of data is requested by the state education agencies (SEAs), additional data collection may occur at other times throughout the year. The Government Performance and Results Act (GPRA) report provides national-level achievement data for all: 1) The percentage of MSP teachers who significantly increase their content knowledge, as reflected in project-level pre- and post-assessments; 2) the percentage of students in classrooms of MSP teachers who score at the basic level or above in State assessments of mathematics or science; 3) the percentage of students in classrooms of MSP teachers who score the proficient level or above in State assessments of mathematics or science; 4) the percentage of students in classrooms of MSP teachers who score at the proficient level or above in State assessments of mathematics or science measures. The national-level information includes an average of the percentage of proficient students in SEAs administering annual state performance examinations from the previous year to the current year. All projects are included in the GPRA report, regardless of when the project began implementation of their MSP grant.
